

AS25
Automatic Bander/Banknote Bander

Introduction

The AS25 automatic banding machine is one of our most specialized models. Unlike traditional banding machines, it features a frameless design, which effectively solves the issue of belt misalignment. With a unique working principle, this machine offers a major advantage: it is not limited by the type of band material or its storage condition. It is highly versatile and especially well-suited for use with paper strap bands.

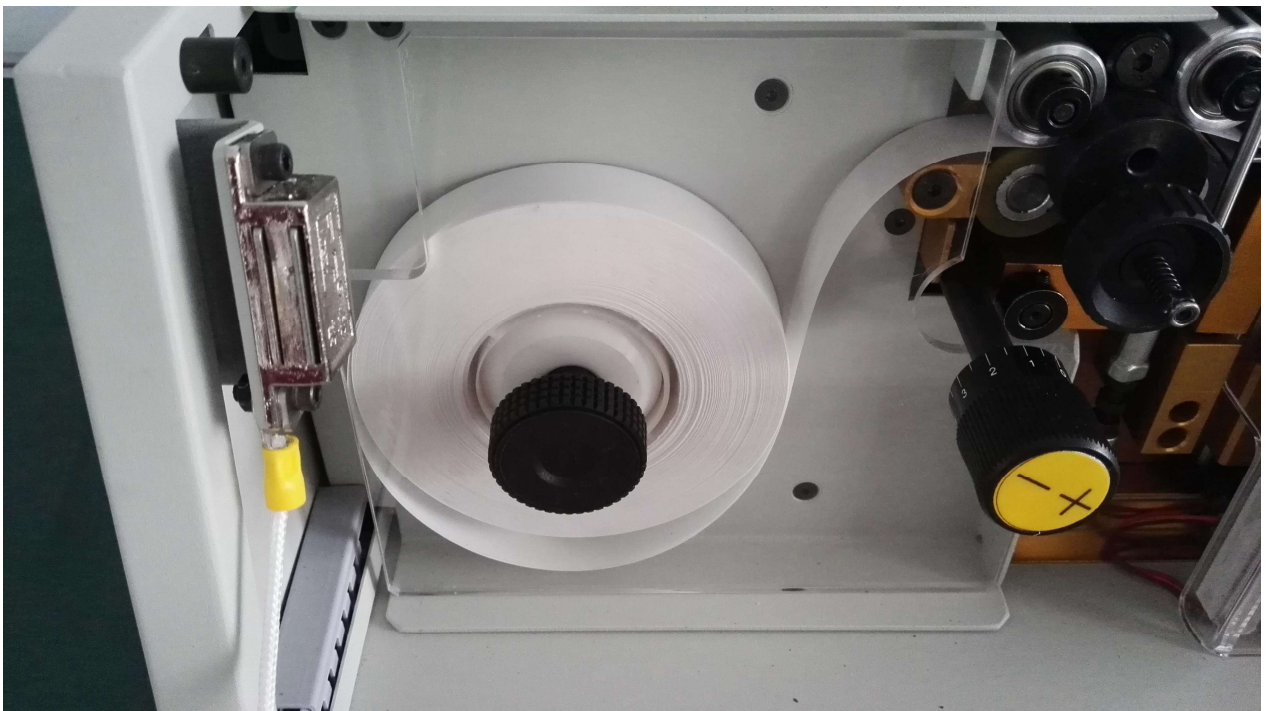

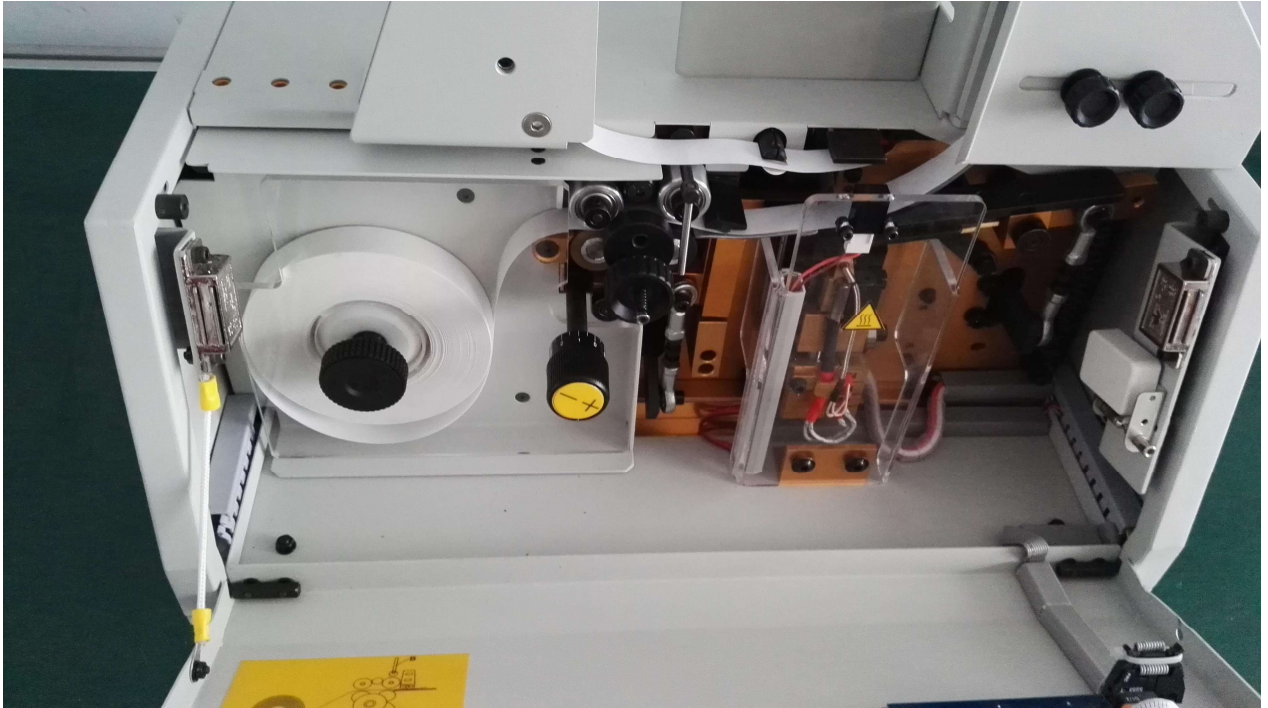

Features

- ①.Open frame structure, solve the problem of belt not in place throwaway
- ②.Not limited in belt material, also can use damp belt
- ③.PLC control
- ④.Universal film and paper tape

Technical specification

Model	AS-25
Strapping speed	25 bundles/ min
Power supply	220v/110v 50Hz/60Hz
Banding tension	adjustable
Sealing type	Heating sealing
Sealing position	Bottom of the product
Applicable product size	Width:25-250mm
	Height:5-250mm
Applicable paper band	Paper band
	Band roll width:40mm
